

PURPOSE OF THE DEVICE

This kit is designed for practicing life-saving maneuvers in the event of a traumatic event occurring to handler or dog of rescue dog units during search or training activities.

The kit can be supplemented with subjective devices depending on the size of the dog or specific needs.

IFAK comes with a quick opening bag and Velcro attachment and platform for backpack or belt (Molle System).

It is compact and easy to carry on a daily basis so that it can be available when needed
